

Make Ca\$hMail™ Daily

WRITE EMAILS THAT PRINT CLIENTS

Most NLP Trainers are grinding out reels nobody watches and long-form posts that land in silence.

Meanwhile, the coaches who've learned this framework are making tens of thousands from a single daily email. No dancing. No AI slop. No chasing.

THIS FREE LIVE WORKSHOP SHOWS YOU EXACTLY HOW.

THE PROBLEM

YOU'RE NOT NEW TO THIS. BUT YOUR EMAILS AREN'T CONVERTING.

You've got a list. A business. Brilliance that's worth sharing and a body of work that genuinely changes people.

✗ BUT YOUR EMAILS RIGHT NOW...

- Get opened and ignored
- Sound good to you and convert nobody
- Over-explain everything and still don't land

+ THE REAL REASON

- ✓ It's not your writing.
- ✓ It's not your offer.
- ✓ It's not your list.
- ✓ Nobody taught you the one thing underneath every email that actually converts — a psychological frame.

WHAT YOU'LL LEARN

FOUR MOVES THAT CHANGE EVERY EMAIL YOU WRITE.

01

Choose the Frame First

Choose the psychological frame before you write a single word.

02

Open the Loop

Open a loop in line 2 that holds your reader hostage until the CTA.

03

Embed the Proof

Embed proof inside a story so it lands as evidence, not a sales pitch.

04

Close with a Trigger

Close with one trigger word that gets replies without a follow-up in sight.

Your next email doesn't just get read. It starts conversations. It creates enrollment moments.
That's the shift.

The Method

THE C.L.O.S.E. FRAMEWORK™

A 5-phase system built from inside the NLP world. Not templates. Not "value emails." Not

corporate marketing theory borrowed from a different industry.

✓ **14 Psychological Frames**

14 psychological frames — each one engineered to move a specific reader state toward a decision.

✓ **Structured Email Flow**

A structured email flow — because the architecture is built on how decisions are actually made.

✓ **Built for Your World**

Built for high-trust, high-ticket conversations with the exact audience you're already talking to.

Every email that converts follows this architecture. We'll walk through every phase live and show you how to apply it to an email you can send the same week.

PROOF

THIS ISN'T THEORY.

This is the exact strategy Conor and I used to generate over \$100,000 in a single campaign — and hundreds of thousands since the day we started deploying it.

CONNKTU members who've taken this and run their own campaigns have made tens of thousands using nothing more than this framework and a daily email.

Lucy ran one campaign using this exact method. Made tens of thousands from it.

One framework. One email a day. The difference that makes all the difference.

WHAT YOU WALK AWAY WITH

PLUS, YOU GET ALL OF THESE.

After this session you'll know how to write emails that feel natural and convert. Structure every email with intention before you open a blank page. Turn a list of subscribers into actual enrolment conversations. Stop sending content and start creating positioning.

You'll also leave with the tools to do it.

BONUSES (ALL INCLUDED, FREE):

|----|---|
| 01 | The C.L.O.S.E. Framework™ Swipe Sheet |
| 02 | The 14 Psychological Frames Reference Card |
| 03 | The Email Planning Canvas |
| 04 | Live Hot Seat Q&A with Kallum
— bring your next email and we'll work through it together |

WORKSHOP DETAILS

June 4, 2026 at 7:30 PM (AEST)

THIS IS A LIVE WORKSHOP

There's a 48-hour replay window for registrants. After that it's gone — no archive, no library, no "catch it later."

The kernels don't all pop at the same time. But when it's your turn, you'll know.

us US East Coast 5:30 AM EDT (June 4)

us US West Coast 2:30 AM PDT (June 4)

gb London 10:30 AM BST (June 4)

ae UAE 1:30 PM GST (June 4)

sg Singapore 5:30 PM SGT (June 4)

au Australia 7:30 PM AEST (June 4)

YOUR EMAILS ARE GETTING OPENED BUT NOT CONVERTING

This is where that changes.

CONNEKTU MEMBERS (INSIDER ACCESS)

INSIDE CONNEKTU, THIS GOES FURTHER.

You don't just learn the framework — you get the full email example library.

Real campaigns, mapped to every frame, with copy-level annotation showing exactly why each line works.

The Email Command Centre tool.

Ongoing refinement and live feedback on your own campaigns.

This is where emails stop being a guess and start being a system.

The workshop gives you the framework. CONNEKTU gives you the machine.
